body to the white house, where they had an sppointment to meet the President. They were received in his private office, and each delegate was introduced to the President by Col. Bridges, who was formerly on Mr. Cleveland's staff when governor of New York state. The delegates were received very cordially, and an informal talk followed in repeat to the bill which it is proposed to bring to the attention of Congress. The President said he was much interested in the state millitia, and from his experience while governor he could appreciate the importance and necessity for an organization in every state. He had not given the subject that attention which he is that it demanded, but he thought that it was a matter well worthy the consideration of Congress, and he hoped that the association would be successful in the objects for which they had convened in this city.

Then they called on Gen. Sheridan, Gen. Benet, and the Secretary of War, and had informal talks with each of these officials on the scope and purpose of the bill which they had convened in this city.

"I feel ten years younger," was the reply, "You know! used to be under the weather all the time, and gave up expecting to be any better. The doctor said I had consumption. I was terribly weak, had light-sweats, cough, no appetite, and lost flesh. I saw Dr. Pierce's "Golden Medical Discovery' advertised, and thought it would do no harm if it did no good. The President's Reception There were fully 300 people at the President's eception yesterday. The President did not come down until nearly 2 o'clock, but the crowd watted, and, when he did appear, surrounded him. A man who resembled the President was the center of attraction for a time. The Malignant Ingenuity of a Flend The Malignant Ingenuity of a Flend Could scarcely devise tortures more exeruciating than those to which the victim of rheumatism, in the inflammatory stage, is subjected. It is also dangerous on account of its tendency toward the heart and stomach. Among the benign qualities of Hostetter's Stomach Bitters is that of expelling from the circulation those acrid impurities to which the disease is attributable. Analysis proves that, in cases of rheumatism, the kidneys fail to eliminate these impurities from the blood. The Bitters by stimulating these organs to activity, enables them to perform this all important function, and, therefore, averts the disease or remedies it at the outset. A Singular Gas Explosion. Patrick Cosgrove and Martin Naughton, em-ployes of the gas company, were searching yesterday for leak in a gas pipe at Sixth and yesterday for leak in a gas pipe at Sixth and Boundary streets. Cosgrove's pick struck a stone that caused a spark to fly, which, meeting with the gas that was escaping into a sewer near by, caused an explosion. The pick was hurled into a tree and the top of the sewer trap was blown over Boundary street into Le Droit Park. The explosion sounded like a salvo of artillery. The windows of several houses near the exavation were shattered. Cosgrove was slightly burned about the face. Naughton, who was shoveling at the time in the ditch behind Cosgrove, escaped injury.

Philadelinita, Pa.—The News says: "A remarkable discovery made last winter, which involves a most important question—that of public health, is being discussed by eminent physicians and public men. It is shown conclusively that throat and lung troubles can be cured without resorting to the use of morphia or opium—especially dangerous in the case of children. The governor of Maryland and all the officials of that state indorse the remody; and hospitals and charitable institution in this and other cities use it with remarkable results. The remedy, which is only if central a bottle, is Red Star Cough Cure. It is purely vegetable; it contains no poison or narcotics, and is a positive cure.

Continued Activity in Stocks-Wheat

NEW YORK, Dec. 16 .- The stock market ha gain been active and strong, although the luring the morning hour was some-aller than usual on a very active in irket, when the execution of orders that have no cumulated during the night and early mornic add misterially to the early business. The total sales were 621,550 shores, and the business was somewhat better distributed than for several days rest, but five shocks, Missouri, Kantess and Texas. St. Paul, Lake Shore, Northwestern, and Northern Pacific preferred contributed nearly 60 per cent, of the day's business. After a firm opening and some heatlation in the early dealings, with more or less irrgular movements, the market steadled, and was firm at midday at fractions above last evening's closing figures. In the next hour there was a decline, during which a large portion of the earlier advances was lost, but from that time until 5 o'clock the market was conspicuously trong, and advanced from fractions to over 1 per cent. It closed strong at about the best prices of the day and at an average of over 1 per cent, above last evening's final figures. The advances for the past two days have been a little more than the losses of best Saturday and Monday, so that the prices this evening are a little more than the losses of best Saturday and Monday, so that the prices this evening are a little more than the dose on Friday.

Money on call continues easy at 1½ to 2½ per cent. closing weak at 1½. Sterling exchanged continues quiet and quotations unchanged. Government bonds are active and strong. State bonds have been neglected this afternoon.
